

David Shaw, CKM
Senior Knowledge Management Advisor
To the 1st Cavalry Division and Fort Hood, TX.
Battle Command Knowledge System

David entered the Army in Dec 1981, as an armor officer and served in a variety of leadership positions. His assignments included duty as a platoon leader, battalion S4, company commander, professor of military science, brigade S4, battalion executive officer, and deputy TRADOC systems manager for FBCB2.

David was medically retired as a Lieutenant Colonel with 18 years of service due to an extended battle with cancer. Following his retirement from the Army, David worked as part of the *NORTHROP GRUMMAN* test team in the CTSF (Central Technical Support Facility) at Fort Hood and has training on multiple ABCS (Army Battle Command Systems). David joined the BCKS team in 2005 and is a Computer Sciences Corporation (CSC) employee. He has completed Advanced Facilitation Training and the Battle Command Knowledge Systems Course. He earned a Certification in Knowledge Management (CKM) by the KM Professional Society and currently serves as a Knowledge Management Advisor in support of 1st Cavalry Division and Fort Hood in Killeen, Texas. David's current focus is on CAVNET for the 1st Cavalry Division.

David holds a B.S. Degree in Psychology from Northeastern Oklahoma State, and pursued graduate studies in Organizational Behavior at Colorado State University. While in the army he attended Armor Basic Course, Armor Advanced Course, Military Science Instructor Course, Military History Instructors Course, and US Army Command and General Staff College.
