

Mr. Fred Rawcliffe (YA-03)
Project Manager (AST)

Mr. Rawcliffe is currently serving as the Deputy Knowledge Management Branch and as the Project Manager for the Army Force Generation (ARFORGEN) Synchronization Tool (AST) at U.S. Army Forces Command (FORSCOM) at Ft. McPherson, Georgia.

Mr. Radcliffe was commissioned from Brigham Young University in 1975 and served as an Artillery Officer his first year of active duty. He retired from the United States Army ending his career as a Lieutenant Colonel in the Transportation Corps while assigned at US TRANSCOM. His military career was primarily spent in divisional assignments with tours in Korea, Germany, Puerto Rico, and the southeastern United States. Although a transporter by military trade, he used his automation officer skills on several software efforts resulting in capabilities that were immediately placed into operation. Upon retirement, he worked as a contractor supporting initiatives with the Defense Advanced Research Projects Agency (DARPA) and commercial industry until his civil service employment at FORSCOM.
