

Department of Mathematics
MADN-A

UNITED STATES MILITARY ACADEMY
WEST POINT, NEW YORK

15 July 1953

1st Lieutenant Paul F. Gorman
772 Humphrey Street
Swampscott, Massachusetts

Dear Lieutenant Gorman:

We are reviewing and bringing up to date our records of officers eligible to come to West Point as instructors in the Department of Mathematics. Selection is limited to those who ranked high in mathematics during their undergraduate work and who have demonstrated during their commissioned career character, leadership, and superior efficiency. We also should like to limit selection to those officers who really want the assignment.

We should like to have you join us.

Each October, I send to Washington a list from which officers are selected for assignment the following summer for a three year tour of duty. I should like to submit your name for consideration for assignment next summer - or at any future time which may better fit your plans or the estimated time of your availability from your present assignment.

Will you therefore please let us know whether you desire such an assignment by completing and returning the inclosed questionnaire? If you have any questions on the nature of service here, scope of the course, quarters, or any other related subject, I shall be glad to answer them.

Sincerely,

Wm. W. BESSELL, Jr.
Col. USA, Professor
Head of Dept. Math.
