Sir:

I am attempting to send you the transcript of our interviews which focused on your pre-service years and school assignments. If this makes it you will receive 65 pages of text which will end with "...the theory of learning at Quantico."

The document has been coded from Microsoft Word 4.0 to the Binhex format for transmission purposes.

I have checked each page with the actual tapes to assure that the transcriber accurately captured your thoughts. There is some additional editing which you may wish to consider. I did not attempt to in any change what was said but would be happy to take a cut at it once you have looked at the document and give me the green light.

If this does not work I will get the document to you using the direct hook up.

Very Respectfully,

Bob Reddy
