# CARL

The Combined Arms Research Library is here to help you discover all the information and entertainment you are looking for.

The CARL's collection specializes in all aspects of military art and science: joint and combined operations, tactics and doctrinal development, leadership, intelligence, weapons, equipment, and training.

The Library is also an inviting place for children and their families to explore our collections of popular fiction, young adult fiction, children's books, audio books and DVDs, as well as web based eBooks and downloadable audio books. Don't miss popular children's programs such as Story Time and Summer Reading Program events.

Over the years, the library has grown with its users and today serves a community diverse in interests, needs, and age. We look forward to serving you now and in the future.
