CALL FOR PAPERS

“What is the Greatest Challenge to the Army Profession for the Army of 2020 and Beyond?”

The Army has a dual nature—it is both a military department (a part of the Armed Forces) and a military profession. As one of the Nation’s armed services, we carry out the missions assigned by the Commander in Chief in accordance with the law and intent of Congress. As a military profession, the Army is built upon an ethic of trust that buttresses the other four essential characteristics of our profession: military expertise, honorable service, esprit de corps, and stewardship. (refer to Army Doctrine Publication 1, The Army, Chapter 2) http://armypubs.army.mil/doctrine/DR_pubs/dr_a/pdf/adr1.pdf

The Army will only be and perform as a military profession when these five essential characteristics are present in its culture, in its professionals and their units that exhibit competence, character and commitment, and in its external relationships. Together, they represent more than official statements. They embody our shared values that reflect our American approach to warfighting. The Army functions as a military profession when its leaders, and all who support it, remain committed to maintaining these five essential characteristics.

Examining one or a combination of the five essential characteristics of the Army profession, “What is the greatest challenge to the Army Profession for the Army of 2020 and beyond?”

WHO: OPEN TO ALL MEMBERS OF THE ARMY PROFESSION - Soldiers, NCOs, and officers of the Profession of Arms, Department of the Army Civilians, and retired Army professionals

WHAT: Papers by up to three authors, approximately 5000 words, to be judged for publication in an upcoming Military Review Special Edition as part of the Calendar Year 2013 America’s Army, Our Profession education and training program

WHEN: Deadline: 28 February 2013, for publication Summer 2013

WHERE: Send submissions to CAPE@usma.edu
