

# Combined Arms Center CAC

**MISSION:** The Combined Arms Center (CAC) educates, trains, and inspires the force by stewarding the profession, developing leaders, and driving change to create a Multidomain Operations (MDO)-capable Army by 2030.

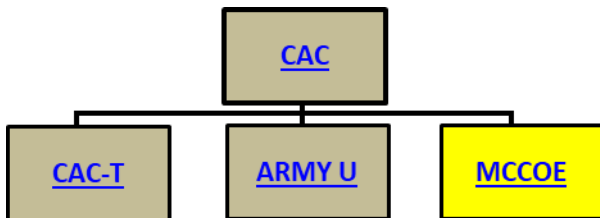

## CAC CG Imperatives:

- Develop the Army of 2030 to Fight and Win
- Treat Everyone with Dignity and Respect
- Train Like Your Life Depended on It

## ENDURING EFFORTS

- Leader development (MCCoE)
- Education (CAC-T)
- Doctrine (MCCoE)
- Lessons learned (MCCoE)
- Training development (CAC-T)
- Training support (CAC-T)
- Functional training (MCCoE)
- Force Modernization Proponent
  - Unified Land Operations
  - Mission Command
  - Echelons above Brigade Combined Arms

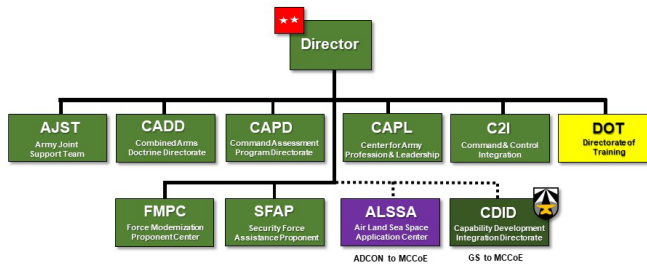

# Mission Command Center of Excellence MCCoE

**MISSION:** MCCoE, as the lead for the Mission Command Force Modernization Proponent and the Command and Control Warfighting Function, conducts continuous DOTMLPF-P analysis to identify, develop, integrate, and synchronize C2 requirements and solutions in order to best prepare leaders and formations to successfully exercise the C2 of multidomain operations during competition, crisis, and conflict, across the competition continuum.

## ENDURING EFFORTS

- Implement Army Leader Development Strategy
- Implement Army Mission Command Strategy
- Deliver Doctrine
- Instill the Army Profession
- Develop and Deliver C2 Capability Training and Leader Development
- Support the Warfighter

# Directorate of Training DOT

**MISSION:** The DOT conducts training development for MCCoE assigned proponentencies that enable the total force to execute realistic and rigorous training to achieve and sustain readiness.

## ENDURING EFFORTS

Analysis, design, development, implementation, and evaluation of doctrinal MCCoE Proponent training products and services that support:

- Command and control (C2) training readiness in all Army formations
- Training readiness in combined arms units at echelons above brigade
- Training for future C2 capabilities that enable the total force to execute realistic and rigorous training to achieve and sustain readiness

**Director: 913-684-6885**

**Deputy Director: 913-684-6825**

**Operations Office: 913-684-6814**

## Training and Education Products Branch

**Mission:** Deliver and manage products for echelons above brigade (EAB) combined arms units as well as for C2 for all echelons/cohorts and manage those products and across all training domains to enable sustainable readiness.

### KEY TASKS

- Develop and manage standardized METLs and supporting collective tasks, conditions and standards for EAB combined arms organizations
- Develop and manage individual and collective tasks, conditions and standards for Mission Command and C2 for all formations
- Develop and Manage C2 and EAB training products (Training Circulars, Combined Arms Training Strategies, Training Support Packages w/ embedded scenarios, etc.)

## Digital Master Gunner (DMG) Branch

**Mission:** Provide Soldiers with the knowledge, skill, and abilities to operate, configure, and coordinate the connectivity of C2 applications to provide the Commander his/her common operating picture. (note: A Mission Command Digital Master Gunner is a Subject Matter Expert that can operate, maintain, integrate, and train others on C2 applications to generate a COP for the Commander.)

### KEY TASKS

- Conduct the MC Digital Master Gunner Course
- Employ Command Post Computing Environment (CPCE) as a C2 system
- Integrate, visualize, and troubleshoot digital WfF systems
- Provide C2 application support to unit DMGs after course graduation
- Proponent for Additional Skill Indicator 5C

### FY23 MC Digital Master Gunner

**For class dates please visit the Army Training Requirements and Resources System (ATTRS) @**

<https://www.atrrs.army.mil/atrrsc/>

## Training Capabilities and Operational Integration Branch

**Mission:** Determine and implement future Mission Command training requirements to build future readiness

### KEY TASKS

- Manage and develop all aspects of training and training products for the new / "to-be-fielded" C2 equipment
- Oversee the Mission Command Arts and Sciences Program (MCASP) which supports learning environments across Army learning institutions
- Manage Basis of Issue Plan for C2 systems allocation across the institutional and operational communities and the CTCs
- Support the Network Synchronization Working Group (NSWG)
